

November 30, 2022

Dear Valued Partner,

Due to multiple factors, there are concerns about the stability of energy supply across the European Union this winter. We have investigated these concerns with our suppliers. The current assessment is that none of Ambiq's suppliers will be impacted by this situation.

Ambiq will continue to observe the situation and provide updated information as appropriate. Should you have any questions, please do not hesitate to contact your representative or email us at sales@ambiq.com.

Best Regards,

Scott Palmer

Director, Sales Operations
