

January 11, 2023

Dear Valued Partners & Customers,

As previously communicated, Ambiq is pleased to announce that we have reduced our order-to-ship lead times for production products to 12 weeks. In addition, our new product lead times have been reduced to 16 weeks. These new products include Apollo 4 Blue Plus, Apollo 4 Blue Lite and Apollo 4 Lite.

In an effort to keep costs in check and effectively manage available inventory, new orders placed within these lead times will incur an expedite fee equal to 10% of the dollar value of that order.

Thank you for your continued partnership. We wish you a healthy and prosperous 2023!

Best Regards,

Scott Palmer

Director, Sales Operations
